To the Editors:

Permit me to make a suggestion of two for the consideration of our breaking people, legislators and others. The charters of the Banks in this State was extended last winter for ten years, and I presume there is no one who would recommend that they should be summarily repealed or vacated, but that all would desire to see such changes made and restrictions and limitations imposed as would be consistent with the rights vested by the charters, and for the advantage of the community.

Gov. Hamlin recommended, very wisely I think, in his message, last January, that the amount of blank bills which might be held by a Bank should be fixed by law, and that every bill put into circulation should be registered and countersigned by some officer—say Treasurer—to be designated for that duty. With this provision I do not believe a case would ever occur in which bill holders would suffer—all the losses to this State, for many years, have accrued from the fact that Bank officers have been permitted to have as many sheets of blank bills in their possession as they chose to pay for, and with them on hand ready to be used have been tempted to make over issues. If a law of the character recommended had been in existence six years ago the people would have suffered no losses from the Ship Builders Bank at Rockland; and the Ellsworth, Exchange and China Banks would have escaped the embarrassments into which they were led by the fatal facility permitted by the law for expanding their liabilities again, with this provision; stockholders would enjoy a security against over issues, and frauds on the part of Bank officers which they cannot feel now. This wholesome recommendation of the late Governor was ignored by the Legislature, as I learned, at the instance of some Bank men in that body, who objected to the trouble it would occasion the Banks—as if the convenience of the Banks was of greater moment than the good of the community.

Since the co nage of gold bears I see no necessity for the issue of bills of the lowest denominations, and think it might be well to prohibit the issue of bills of the denominat on of one and two dollars. I would not do more at first. If the experiment works well it can be extended in its operation hereafter. Reforms of this kind to be safe must be gradual.

Further, I would by law prohibit the Suffolk—or any out of the State—redemption; not that it would be wise to depart from this system, but that I would join to the advantages of this, other and equal benefits to the State and its citizens. Let a Clearing House be established in Portland, and we shall have all the advantages of the present Suffolk redemption so far as the soundness of the circulation goes; for whether the bills are redeemed in Portland or Boston is of no importance so far as this question is concerned—the point is that their redemption is required at some place near at hand from the money centres of the country. It need not be feared that in this event Maine bills would not, as now, be current in Boston and elsewhere. New England bills are not redeemed in New York yet they are readily received there in payment of debts and for the purchase of goods. But, suppose it should be otherwise, and the merchants of Boston should refuse to receive our bills from their customers at par, nothing better could be hoped or desired. The only effect of this course would be to give to Portland the trade which now unnecessarily and unprofitably for every interest in Maine goes to Boston.

Maine now keeps something like $1,000,000 constantly on deposit in Boston, which is so much living capital transferred permanently from our State and there loaned for the uses of a trade that ought to be cherished at home. Our money is gathered up week after week and sent to Boston to stimulate commerce there, and strengthen it so well that it shall be impossible to build up a competing trade within our own borders. As the old maid says in the play, "was there ever anything so ill-fitting?"

VOX POPULI.

[We do not altogether agree with our correspondent. In our judgement, the value of what is called the Suffolk system, in maintaining a par currency, will be decreased in proportion as its area is contracted. Let every State have system of its own, and the bills of each State must inevitably be alone or cost deducted in every other State. The reason that Maine money goes at par in New York is because the Maine banks are included in the great New England system of redemption.—Were our banks to redeem only at their own counters or at their own clearing house in Portland, we doubt if Maine money would be so readily taken in New York. If a redemption system for a single State is as safe and as beneficial as one which includes the whole of New England, why may it not be still more contracted? And if the business interests of Maine would be benefited by withdrawing our bank deposits in Boston and establishing a Clearing House at Portland—why should not *Eastern* Maine, or, Penobscot county concentrate its business interests by establishing its Clearing House at Bangor? The difference in distance from the great money centres is not very material.

Then as to the Maine capital which we are obliged to keep or deposit in Boston—would it not be necessary to keep the same capital in bank here, if our banks redeemed only at home? Could it be safely loaned, if withdrawn from Boston?

Unitarian	153,00
Central	90,00
Universalist	62 00

Collection at the Free Church next Sunday.

Rev. S. K. Lothrop, D. D., of Boston will preach at the Unitarian Church Thursday (Thanksgiving) morning. Service 10½ o'clock.

John McAnna, who was arrested on suspicion of having broken into the store of Messrs. Atwood & Nickerson, will be examined Saturday next at 10 o'clock. He was unable to procure bail, ($1500) and was therefore committed.

The people of Augusta are to have a grand opening *Soiree* at North's new hall, on the evening before Thanksgiving day. The hall is one of the most elegant in the State, and is named in honor of the builder and owner, James W. North, Esq., Mayor of the city.

THE TOPSHAM MURDER.—The jury of inquest upon the body of Eliphalet Berry, who was murdered at Topsham on the 9th inst., brought in a verdict that the deceased came to his death by a wound inflicted by a knife or some sharp instrument in the hand of David Y. Dudley of Topsham.

Dudley was arraigned on Tuesday before a justice and pleaded not guilty to the complaint but waived an examination. He was committed to jail to wait his trial which will take place in Bath at the April term of the Supreme Judicial Court.

The following particulars as elicited in the examination before the Coroner's Jury, we gather from the Brunswick Telegraph:

Simeon Thompson, of Brunswick, was present and says there was no quarelling until the company got to the bridge, then there was loud talking—Berry grabbed a cudgel which Dudley had in his hand—there was further loud talk and no two passed ahead. After a few moments Thompson with the others walked on to see where the two men were—met Dudley coming towards them, and found Berry on the ground trying to get up. Berry and Dudley accused each other of stealing rum—and Dud ley said he could whip Berry and Ba him. He also cried when he was talking over the difficulty.

Berry was taken up by two of his companions who thought him very drunk and conveyed him to his house but was found in reality to be dead.

A gentleman in Brunswick proposed to give $100 to the poor, provided the citizens will make up $400 in addition for the same object.

Our city have voted to purchase the Talbman property between Washington and Front streets, for a public promenade, provided it can be had for $10,000—also the South Hill, for a similar purpose, if it can be had for $6000.—*Bath Organ.*

New Publications.

GRAHAM'S ILLUSTRATED MAGAZINE for December appears in good season. It is filled with very interesting and valuable articles—historical, literary and miscellaneous. This is one of the best magazines in the country.

THE LADY'S HOME MAGAZINE, is edited by T. S. Arthur and Virginia F. Townsend. It is an excellent periodical for home and the fireside. Its stories and sketches are all of a high-toned moral character, well written, and withal of a practical character. The December number is received.

A NEW YORK EXQUISITE.—Mr. Gardner Furness, the young gentleman involved with the Mrs. Woodman affair, the Police Gazette says is very showy and tidy in his dress, and never fails at night, before retiring, to put his pantaloons in a stretcher. The aim is to keep them in shape. He does the same with his boots; as soon as they are taken off they are boot-treed during the night, and to give the boot a high instep, it has an extra pad of leather. This gives his feet a very pretty shape, which, with his small hands, he considers a big cat *forte*. He imagines that they are truly captivating."

SEIZURE OF THE SCHOONER DR. KANE. We learn from the Miramichi Gleaner that the American schooner Dr. Kane has been seized at that port for an infringement of the Maritime Laws; she having conveyed a cargo of wood to that port from Quebec.

The police of New York had their attention called, on Tuesday, to a young man stopping at one of the hotels, the proprietors of which thought he had a thievish look. His carpet bag disclosed a full set of burglar's implements, all elaborately and fancifully ornamented.—There were fifteen varieties of keys, and a pair of forceps which would unlock almost any door in the city. The police waited for the owner, and arrested him. He acknowledged his character, but told the officers that they could not touch him—as he had attempted no hits here." They proposed to keep his tools, but he resisted, alleging that the law exempted a mechanic's tools from seizure! They were obliged, finally, to let him go, but concluded to "take the responsibility" and retain the tools.

MONEY AFLOAT!—At Albany, during a very heavy rain on Tuesday, a gentleman dropped a roll of bills—about $700—in the street.—He soon after missed it, and on retracing his steps, found a number of boys poking the bills out of the gutter with broom-sticks and pieces of lath. He recovered only $107 of the "floating currency."

An exchange reminds the public that all editors except old bachelors, are expected to receive a turkey for thanksgiving dinner. We hope the one designed for us will be given to some poor family, and we will contrive to borrow one, or to be thankful over some other dish.

Molasses made from the Chinese sugar cane is now sold each market day in Washington. It is made in Maryland and Virginia, and the flavor is said to be pleasanter than that of the common.

George W. Warren, Barry & Co., dry goods dealers of Boston, since their failure, and the marking down of their stock, have sold at retail $8000 worth of goods daily.

Six silver bedsteads have been ordered in Paris, by the Pasha of Egypt, for his son, who is soon to marry the present Sultan's daughter.

The New York Herald, which supported the Democratic ticket in the recent campaign in that State, rebukes the Democratic press for their glorification over that result of the election. It says:

"In the outset, we know not which is most amusing, the refreshing self complacency of the sublime impudence of these Democratic bellowing organs. A clear democratic gain of nearly one hundred thousand votes, says the Washington Union. But how? Is the democratic vote of this State of November, 1857, greater than that of 1856? We believe it is nearly the same. This clear gain, then, of a hundred thousand consists of an opposition vote of one hundred thousand held in reserve."

The Arabia's News.

The following are extracts from the papers by the Arabia's mails:

The London Times of October 27, gives the following summary of the

News From India.

The great news from India hardly seems to admit of analysis or discussion. Delhi, the famous city and arsenal on which all thought to have been fixed for months, has fallen, and the rebellion of the Sepoys has received its death blow. In presence of this great event every thing else appears small and trifling. Although the intelligence by the present mail is fuller than usual, it seems dwarfed by the interest which attaches to this military exploit. Delhi was assaulted on the morning of the 14th of September. The attack was made in four columns, of which one, composed of the Cashmere Contingent, sent to our assistance by the late Ghulab Singh, was repulsed. The others, however, were successful. An entrance was effected to the Cashmere Gate, to the north of the city. An advance was made along the ramparts to the Cabul Gate, on the northwest. Here we learn that the resistance of the mutineers was obstinate and our own loss severe. It was not until the 16th that the magazine was stormed. On the 20th our troops took undisputed possession of the city. Our loss was 600 men, including 60 officers. Of the latter, the names of 8 are given as having been killed in the assault, and 4 in the operations proceeding it. The slaughter among the mutineers was no doubt very great. A large number escaped over the bridge, and among them the king of Delhi and his two sons, disguised in women's clothes. It is to be hoped that by the next mail, we shall hear that these three miserable rebels of the rebellion have been taken and executed.

The other news is of a checkered nature.—First in interest, is the fate of Lucknow. With regard to this place and its brave garrison we are happy to say that the intelligence is most favorable. General Havelock crossed the Ganges on the 19th of September, expecting to be joined almost immediately by Gen. Outram's force. Letters had been received from Lucknow reporting that the garrison was in excellent spirits, and had repulsed an attack on the 6th of September with great loss to the assailants. They had provisions sufficient to last them to Oct. 1st, by which day they were pretty sure to be relieved by Generals Havelock and Outram.

The fall of Delhi and the loss of the great arsenal there established has so completely crushed the chances of the mutineers that we may hear almost with indifference of the sporadic outbreaks which are reported from different quarters.

The Liverpool Mercury, in its summary of Oct. 30th, has the following:

"The journals and letters brought by the overland mail, furnish, after all, but a meagre and imperfect account of the great event, the capture of Delhi, which, it is generally expected, will break the back of the insurrection. One paper, the Paris Presse, talks of its dispatch calculated to dash the hopes which were built upon the great event.

"The reverse of the medal" is that the English found Delhi denuded of provisions, and that the insurgents had cut off their communications, so that, according to one dispatch the position of the conquerors is exceedingly critical. If this dispatch is correct, and if, instead of being besiegers, the English have become the besieged, and are to be shut up in Delhi as they have long been at Lucknow, the only advantage of their successes will be the moral prestige which is supposed to attach to the possession of the residence of the Great Mogul.

"Our great triumph of the 20th of September—a day which will now be doubly memorable in the annals of British valor—was not achieved an hour too soon. It is evident, from the general tenor of the news brought by the present mail, that difficulties and perils were multiplying and thickening upon us; and had the rebellion held its ground at Delhi but a few weeks longer, the consequences might have been fatally disastrous. It is increasingly apparent that the fidelity of the Bombay army was rapidly giving way, under the temptations presented by the prolonged success and impunity of the Bengal Sepoys. Though the Presidency itself (as well as that of Madras) continued tranquil, the Bombay troops stationed in Scinde were already no longer to be depended upon. At Kurrsal ee, Hyderabad, (not to be confounded with the place of the same name in the Nizam's dominions), Shikerpore, and elsewhere, plots had been discovered, regiments disarmed, and conspirators and mutineers executed.

England.

The American horses Pryoress and Babylon made an inglorious performance in the race for the Cambridgeshire stakes at Newmarket. Thirty-one horses ran, and Babylon actually came in last. Mr. Parr's "Old Trick" was the winner.

The Leeds Mercury, in noticing the visit of the Hon. Charles Sumner to the place, says that Mr. Sumner's health has been very greatly restored, and that he will return to America in the steamer of the 7th of November, and be in his place in the Senate on the opening of Congress.

HORRIBLE MASSACRE OF EMIGRANTS—OVER ONE HUNDRED PERSONS KILLED.—A letter from J. C. Ward to the Los Angeles Star, dated San Bernardine, Oct 4, 1857, states that an entire train of emigrants from Arkansas and Missouri, bound to California by Great Salt Lake, had been massacred by the Indians at the Mountain Meadows, which are on or near the rim of the Great basin, and some distance south of the most southern Mormon settlements. The massacre took place about the 10th or 11th of September. Mr. Ward says he first obtained his information from the Indians. The account, no doubt much exaggerated, if not altogether untrue, is as follows:

The company consisted of one hundred and thirty or one hundred and thirty five men, women and children, and included some forty or forty-five capable of bearing arms. They were in possession of quite an ammount of stock, consisting of horses, mules and oxen.—The encampment pas attacked about daylight in the morning, no say the Indians, by the combined forces of all the various tribes immediately in that section of the country. It appears that the majority of them were slain at the first onset made by the Indians.

The remaining forces formed themselves into the best position their circumstances would allow; but before they could make the necessary arrangements for protecting themselves from the arrows, there were but few left who were able to bear arms.

After having corraled their wagons, and dug a ditch for their protection, they continued to dre upon the Indians for one or two days, but the Indians had so secreted themselves that, according to their own statement, there was not one of them killed, and but few wounded. The emigrants then sent a flag of truce, borne by a little girl, and then gave themselves up to the mercy of the savages, who immediately rushed in and slaughtered all of them with the exception of fifteen infant children that have since been purchased, with some difficulty by the Mormon interpreters.

The causes which led to the massacre are said to be that, when the train camped at an Indian village near Fillmore City, the emigrants not only cheated the natives badly in trading with them, but they put strychnine in a dead ox for the purpose of poisoning the Indians, and also put poison in the water which stands in pools. This occasioned several deaths among the indians within a few days after the departure of the train; whereupon the Indians rallied, selected a place of attack, and took terrible vengeance. Mr. W. says he obtained a statement of the causes of the massacre from Elders Matthews and Hyde, who were in Great Salt Lake City at the time the train was there recruiting their outfit, and were on their way to San Bernardine when the murders were committed, but several days journey in the rear of the emigrants.

By Extract of a letter received from Mor. B. C. Thomas, Tavoy.

MESSRS. P. DAVIS & SON: Dear Sirs—The Karens here have become acquainted with your medicine, and their demand for it is to me very surprising. I have now by me orders for more than fifty bottles; I therefore wish you to send me a quantity, and I will pay you through the Treasurer of the Missionary Union. There is no medicine which stands so high in the estimation of the Karens of these provinces as your Pain Killer, and I feel willing to gratify them, as I certainly a very high opinion of its worth.

Messrs. Isaac Davis & Son,—I find it necessary to address you again as my most sanguine expectations have been more than realized. The call for your valuable medicine is increasing so very rapidly that I fear I shall soon be unable to keep pace with it. My object in writing now is to beg that on receipt of this you will kindly despatch another batch as ordered in my letter of June last. I hope I will not be entirely out before your last shipment reaches me, of which, however, I have not yet heard from you. Yours sincerely,

A Perfect Cure, and no Mistake.

From the Editor of the New York Mirror, Aug. 9.

About four weeks since, one of the compositors of this office was suffering so badly from a cough, that he was unable to sleep nights, and too weak to attend at his case. He became very pale and thin, and gave symptoms of falling a victim to quick consumption. We recommended to him various specifics, which had no effect. Finally, we gave him one bottle of WISTAR'S BALSAM OF WILD CHERRY. It afforded him immediate relief, and he is now a well man and not the slightest symptom of a cough. These are facts, and further particulars may be learned at this office. We should add that the cure in the above case was accomplished by profuse spitting of blood.

Physician and Surgeon,

Has removed his Residence and Office to Hammond Street, nearly opposite the Methodist Street Church, where he may be consulted at all hours, unless otherwise professionally engaged.

Dr. P. will continue to pay particular attention to diseases of the Chest, those of the Lungs, Throat and Heart. Two years almost exclusive attention given to those diseases, under the most eminent German physicians in Philadelphia, and his thorough knowledge of the science of Auscultation and Percussion, enables him to detect the slightest derivation in those organs from their healthy condition.

His experience and success in the treatment of Lung difficulties, especially, give great confidence in his ability to give most entire satisfaction to all who may request his services.

Patients coming from a distance, wishing to remain any length of time under his care, can be accommodated with apartments at his residence.

DR. SANFORD'S
INVIGORATOR,
or Liver Remedy.

THIS IS ONE OF THE GREATEST SCIENTIFIC Medical discoveries ever made, and is daily working cures almost too great to believe. It cures as if by *magic*, even the *first dose* more than one bottle is necessary. Liver Complaint, from the slight to a common headache, is cured by one bottle of Dr. SANFORD'S LIVER INVIGORATOR. All of which are the result of the

Great Medical Principle

that the Liver is one of the principal regulators of the human body, and when the functions of the system are fully developed, the powers of the system are fully developed. The consequence is, the stomach is in perfect healthy action of the Liver for the proper performance of its functions. When the stomach is at fault, the bowels are, as a result, and in consequence of one or both being deranged, the whole system suffers—the Liver—having the diseases of that organ made visible by the following symptoms to which it is liable.

To prove it at this remarkable time, when Liver Complaint, in any of its forms, has become so common, and conviction is certain,

A compound has been discovered by a long course of scientific experiments, and extracting that part of the medicinal virtues of the roots, herbs and barks, which is the active principle or medicine in them, and which is the only part of medicine that ever cures disease. All morbid or bad matter in the blood is carried off by the natural channels of the body, by one dose, and thereby the blood, giving tone and vigor to the whole machinery, removing the cause of the disease, and without any of the nauseating Calomel or Mineral combined to.

In all cases where directions for a cure is given, headache can be cured by following the directions in the known cause, as quickly as the fraction of a dollar, and unnatural colds can be relieved, and if taken as directed, will never trouble again.

For Dyspepsia or Jaundice it acts speedily or cures sure. It removes all pollution from the stomach.

For Night Mare, take a dose and you are warranted a sure night's rest.

For Female Obstructions, they cannot exist where it is freely taken, while Children cut their teeth, it relieves them of all pain.

It must be known that all diseases arise from, or caused by a deranged state of the blood, and needs a LIVER medicine. This LIVER INVIGORATOR is such a medicine, it has the power, in connection with the blood, to cure all diseases of the Liver, no matter of how long standing, or what may be the form of disease. The vital virtues extracted from the roots, herbs and barks, which are the only parts of medicine that ever cures disease, are astonishing to all those who use the medicine. There is no nauseating taste in it, it is taken in a small wine glass of water and will not be detected, as it will pass down with the water, and will scarcely be tasted.

SANFORD'S LIVER INVIGORATOR

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

FOUR DAYS

LATER FROM EUROPE.

ARRIVAL OF THE

City of Washington,

AT NEW YORK.

NEW YORK, Nov. 15.

The City of Washington has arrived. She has upwards of £120,000, and brings 100 passengers.

The attempted launch of the steamship heretofore known as the Great Eastern, but formally christened Leviathan, was commenced at noon on the 3d. The usual means were taken to move the vessel, but for some time without avail, after about three hours' labor the ship had moved about six feet by the stern, and a little over four feet by the bow, when one of the powerful purchase chains broke, and the work had to be temporarily suspended. Operations were to be resumed as soon as the accident could be rectified; and London papers of the afternoon of the 3d, say it was confidently hoped that the ship would be afloat at high water on Wednesday the 4th.

During the operations, a sudden strain on one of the drums caused it to revolve with great velocity, throwing several men into the air like straws, and knocking down others with great violence. Four men had arms and legs broken, and one died as he was being conveyed to the hospital.

An immense number of people, including many distinguished men, assembled on the shore and river to witness the launch.

The Times of Wednesday says that a postponement of further efforts to Dec. 2d had been resolved on; and mentions that the ship will stand in great danger of settling, owing to the immense pressure (12,000 tons) upon the new made cant.

The Paris Pays says, "We have private intelligence from Hong Kong to Sept. 9th.

The Viceroy Yeh was expected at Canton about the 15th, on his return from Pekin.

The Emperor had conferred upon him the title of Heavey-yanky, which means Lieut. of his person. This is a rank which is never given except to princes of the imperial family when on a mission."

It is said that Yeh has positive orders to remove the English to evacuate Canton, and is authorized, in default of compliance, to make an official declaration of war against England."

SECOND DESPATCH,

From Havana.

NEW YORK, Nov. 16.

Havana dates of Nov. 10th state that Gen. Concha and his subordinates are waking up to the suppression of the slave trade.

The Spanish war steamer on the 30th ult., had captured the American bark Vesta off Bocas, and brought her into Havana, having on board 416 Africans.

On the 7th the steamer Colon brought into Havana an American bark, captured in the vicinity of Sagua de Grande, having on board 400 Africans. The officers and crew were apparently Americans. The vessel is supposed to be the Petrel, owned partially in Boston and Port au.

Several other vessels have landed cargoes in the last ten days.

During the past week our sugar market has been less active, owing to continued unfavorable accounts and returns from the markets of Europe and the United States, added to the stringency pressing upon our commercial and trading community. Prices have yielded a small fraction under the circumstances.

Various Items.

PHILADELPHIA, Nov. 15.

To-day the Reading R. R. Co. executed a mortgage for $7,000,000, to take the place of the mortgage bonds of 1960, for the purpose of paying the bonds and the floating debt of the company. When the new bonds are issued the debt of the company will be less than seven millions.

NORFOLK, VA., Nov. 16.

A despatch to the Herald says the schr. Hallie from St Jago, bound to Baltimore, with a cargo of copper, is ashore in pieces at Carrituck Beach. The captain and all hands are lost. A body supposed to be that of Captain Stevens, with the ship's papers on it, was washed ashore.

ST. LOUIS, Nov. 16.

The Santa Fe arrived at Independence on the 8th inst. Business was dull and money scarce. The party encountered a snow storm on the side of Fort Union. Grass and water plenty on the Plains. The Cheyenne Indians were around Booth and Allison's Post, at Walnut Creek, very much alarmed and anxious to make peace. Intelligence from Fort Kearney confirms the reports of the destruction of the government trains by the Mormons. Mr. Sandee, chief engineer of Magraw's wagon road survey, arrived here on Saturday, en route, to Washington. The expedition has gone into winter quarters at Wind River, near the South Pass. Mr. Sander corroborates the previous report relative to the destruction of the government trains by the Mormons. In consequence of the new discoveries and explorations by Sander's party, the military force will be abandoned, the old route, and were approaching Salt Lake by the open plains on the western descent, by the Bear and Malady rivers. Gov. Cummings and Col. Cook had met and were two days' march east of Fort Laramie. Brigham Young disclaims any knowledge of or participation in the destruction of the supply trains.

New York Markets.

NEW YORK, Nov. 16.

Flour 5 a 10 cents better for State—Common to straight State 4,85 a 5 00; extra do. 5,15 a 5,30; common to good Ohio 5,40 a 5,85; extra Genesee 5,90 a 7,00. Canadian unchanged.

Wheat unsettled and inactive.

Corn very scarce, a fair local demand and firmer.

Pork rather quiet but firm—Mess 19,75.

Beef heavy—country mess 9,00 a 10,00.

Coffee quiet—Rio 10 a 11.

Sugar small sales.

Molasses, moderate sales on private terms.

ARRIVAL OF THE

Steamship Ariel,

OFF CAPE RACE.

ST. JOHNS, N. F., Nov. 14.

The steamship Ariel, from Southampton on the evening of Nov. 4, was signaled off Cape Race to-day, en route for New York.

The Ariel has over $400,000 in specie, and 151 passengers.

The English money market continued in a depressed state, but Consols had slightly advanced, closing on the 3d inst. at 89¾ a 89¾ for Money, 90¼ a 90¾ for the 7th of December—Bank Stock 209 a 211; India Company's stock 209 a 212.

The French Three Per Cents, at the Paris Bourse closed at 65f 90c for money, 67f 20c for new account.

The Dry Goods Market at Manchester is dull and gloomy. At Leeds there was but little business doing. At Huddersfield, the woolen market was inactive.

The Belgian Ministry has resigned.

The King of Prussia's health continues to improve.

The attempt to launch the steamship Great Eastern was unsuccessful. An accident occurred by which several persons were injured, two of them seriously. A second attempt to launch her would be made in one month.

The Ariel's advices contain nothing later from India.

Liverpool Markets.

Messrs. Richardson, Spence & Co. and others report: Flour dull, but steady. Wheat buoyant; fine qualities have advanced 2d, but inferior descriptions are almost unsaleable.—Corn dull at a decline of 6d per bushel. Quotations are—Wheat, red 6s 6d a 7s 9d; white 7s 3d a 8s 3d. Corn, mixed and white 40s a 41s per quarter.

Bigland, Athya & Co., and others report: Flour dull at a decline of 6d a 1s. Corn declined 6d a 1s.

Another report says: Wheat closed with a declining tendency. Corn dull and all qualities slightly declined.

SMITH'S ELECTRIC OIL.

This preparation, which has made such speedy cures in Philadelphia and many other places, begins to attract almost universal attention, and elicit comments of every kind. Some say it is MAGICAL or OMNIPOTENT; others say assign any thing but the real and philosophical reasons—Inflammatory Rheumatism, Gout, Piles, Tetter, Felon, Neuralgia, Salt Rheum, Erysipelas, Sore Eyes, Eruptions of the Skin, Womb Complaints, Abscesses, Croup, Asthma, Indolent Swellings, Stiff Joints, Palsies, Wounds, and Sprains, Broken Breast, Hemorrhage, Sore Throat, Frost-ed Limbs, Acute Nervous Pains, Tooth, Ear, and Headache, Deafness, &c., and Teething Children are now OFTEN cured in from 5 minutes to a few days simply by the IMAGINATION. Nothing has been used this all without fail-ing some special benefit within an hour, and many are they who have been perfectly cured of the disease very speedily.

Large Bottles Ten Times the Cheapest.

DYSPEPSIA WELL DOSED.—

Use according to directions. Apply with the warm hand only—eat plain food—drink no coffee.

A CARD.

To Druggists and Merchants of Maine.—For the convenience of dealers and individuals of this State, I have appointed H. FLOUR,
Wheat Meal & Shorts.

The subscriber has commenced manufacturing FLOUR from one of the best Wheat growing sections of the West. His purchases of wheat are made by agents going among the farmers and selecting the choicest par els of *White Winter Wheat*, for which an extra price is paid, rejecting all other kinds and all ordinary qualities. His Mill has all the latest improvements. The Wheat is thoroughly cleansed before grinding, and the Flour is double cooled before packing. The whole contents of the Wheat are transported to Bangor by Railroad, in Flour of four different qualities, in unbolted wheat meal and is shorts. A car load, 100 bbls, will arrive weekly, so that customers can be supplied at all times with Flour and Meal, fresh ground within ten days. The meal is in bags, consequently no injured by packing 196 lbs. in a barrel as is the usual practice. This Flour and Meal will be found to have the real flavor of pure new Wheat, not having been heated in large piles or in vessels; as is the case with nearly all the wheat manufactured in the large establishments for the large markets.

Dealers can be accommodated with a weekly supply on favorable terms, upon application to the subscriber, Office No 27 West Market Place. STEAMERS.

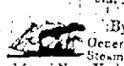
California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Greatly Reduced Prices. 60 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus, via. Panama R. R.



By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama. All Tickets thus signed, can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent,

No. 10 Broad Street, Boston.

Portland to Boston.

Summer Arrangement.

The Steamers LEWISTON, Capt. Geo. Knight, and the FOREST CITY, Capt. F. A. Prince will run as follows:

Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday and Friday, at 5 o'clock P. M.

Fare in Cabin, $1.25
Fare on Deck, 1.00
Freight taken as usual.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families; and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

June 12, 1857 dtf L. BILLINGS, Agent.

Summer Arrangements.

NEW YORK & PORTLAND.

The Splendid and Fast Steamer WESTERNPORT, *Capt. P. S. Berry*, will run regularly between New York and Portland, as follows:

Leave Brown's Wharf, Portland, *every Wednesday afternoon*, at 4 o'clock; and returning, leave New York, Pier 12 N. R., *every Saturday afternoon*, at same hour.

This vessel has just been fitted up with fine accommodations for passengers, making this the most speedy, safe, and comfortable route for travellers between New York and Maine.

Passage $4.50. No charge for State Rooms.

Goods forwarded on this line to and from Montreal, Quebec, Lewiston, Bath, Augusta, Eastport, and St. John. Also, connects with steamers for Baltimore. Goods taken through with despatch, at the cheapest rates.

For Freight or passage apply to

A Homestead for $10.

THIRD DIVISION.

$310,000 WORTH OF FARMS & Building Lots, in the Gold among 13,000 subscribers, or the 7th of December, 1857.

Subscribe to-day for *ten dollars* down, or fifteen dollars, one half down, the rest on the delivery of the deed. Every subscriber will get a building Lot or a Farm, ranging in value from $10 to $25 000. These FARMS and LOTS are sold so cheap to induce settlements, a sufficient number being reserved, the increase in the value of which will compensate for the apparent, low price now asked. Upwards of 1300 Lots are already sold, and a company of settlers, called the *Susquehannock Pioneer Association*, is now forming, and will soon commence a settlement. Ample security will be given for the faithful performance of contracts and no interest.

☞ Nearly 45,000 acres of land, in different parts of Virginia, now at command, and will be sold to settlers at from $1 up to $800 per acre. *Unquestionable titles will in all cases be given.*—WOOD CUTTERS, COOPERS, FARMERS, &c., are wanted, and

Alpine Hair Balm,

—FOR—

Restoring Gray Hair to its Original Color

WARRANTED to cure Baldness, Scurf, Dandruff, Itching, and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the Hair and gives it a natural color, without the use of Hair Dye.

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off, composed of Oils, Alcohol, and other deleterious materials, and all to no use. Hair dyes have been introduced that do not give the Hair a natural color, besides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy, and after seven years trials, perfected this Balm, which is soothing and remedial, and by a gentle friction of the scalp, thereby stopping that troublesome itching. It cures Dandruff, and Scurf, and when the hair has turned gray it will bring it back to its original color, be it Black, Brown or Auburn. It makes the Hair soft and glossy, prevents it from falling off as will be seen upon using this Balm for only a few days—the will be given to the roots of the Hair, and will be seen in perhaps who have had their hair dyed. If you examine gray hair that has been colored for a week, you will find, towards the roots, that the hair has come out gray, hence it is necessary to have the fluid in the roots of the hair healthy, that the whole hair may be a natural color. Each hair has a root in the skin, and is of itself a hollow, gray tube, through which there is a constant circulation of the fluid sufficient from the roots. When this pigment or coloring matter dies out, it leaves the hair hollow, and it becomes gray. To invent a Balm that would produce the pigment, has become the study of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring to their roots natural color by making them the coloring matter in the roots of the hairs.

It is a mistaken notion that oil or grease will restore the hair, as nothing can be more injurious. The Alpine Hair Balm will restore the hair and save the hair of those who have been sick with fever or any other disease.

American & Foreign Patents,

R. H. EDDY,

Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, under Act of 1837,

76 State Street, opposite Kilby-st.,

BOSTON,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that more is MORE SUCCESSFUL BUSINESS AT THE PATENT OFFICE than the subscriber; and its SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind, are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, is hereby saved inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office; as Solicitor for procuring patents. From the high character for professional skill and capacity which he then sustained, and the extent of his business, I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they can not employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

(From the present Commissioner.)

"AUGUST 7, 1856.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the prosecution of business with the Office, as Solicitor. He is universally acquainted with the laws and the rules and practice of the office. I regard him as one of the most capable and reliable practitioners with whom I have had official intercourse.

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are "ill wet," it is one of the greatest causes of cold and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof this is avoided. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I resolved to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which, perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet annery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.
